Thanks for the email. My question was who is the Cercla EPA attorney assigned to EMF. After the meeting I learned it is Andy Boyd. Thanks for your response. Bill

Hi Mr. Bacon,

At a recent Federal Bar Association Conference you approached Jonathan Binder, an EPA OECA tribal attorney about a point of contact in OSWER to discuss FMC/Simplot. Jim Woolford, Director for the Superfund Remediation and Technology Innovation Office in OSWER and Andy Boyd, Regional Counsel for EPA Region 10 (who I believe you know) are available to talk to you when it is convenient. If you'd like to give me a call (202-566-2892) or email me some days/times that work for you, I'll schedule a conference call.

Sincerely,
Janice Sims
